

Green cleaning uses healthy, low-emitting cleaning products and employs processes that are less harmful to a building's indoor air quality. You can identify green cleaning products through the following standards:

- [Green Seal](#)
- U.S. EPA [Safer Choice](#)
- [GSA Sustainable Facilities Tool Green Procurement Compilation](#)
- [USDA BioPreferred](#)

Answer the following questions to earn these points.

1. Do you currently have green cleaning service for non-medical property operations?

Yes	
No	

2. If no, discuss green cleaning with the property's cleaning company.
a. Do they have a green cleaning service option?

Yes	
No	

- b. If no, are they able and willing to use healthy, low-emitting cleaning products?

Yes	
No	

3. For cleaning related to non-medical property operations by internal staff, do you currently use healthy, low-emitting products?

Yes	
No	

4. Commit to green cleaning for non-medical property operations in areas under management control.

I commit to employing green cleaning services and using healthy, low-emitting products in cleaning by internal staff in areas under management control.
