

Commit to ongoing training on water management for facilities or engineering team

Efficiency in day-to-day operations of building equipment requires a knowledgeable facilities or engineering team. Commit to dedicating the resources and time necessary to skill-building in water management for your team.

Training can include live and online courses, conference sessions, on-the-job activities, and self-study. Training resources are listed below.

I commit to ongoing training on water management for my facilities or engineering team.
