

IREM Skill Badge: Maintenance and Risk Management (ISBMNT)

The best real estate managers know that a good maintenance team is invaluable and that skilled maintenance professionals can be hard to find. This online Skill Badge equips you with the strategy, planning, implementation, and evaluation of maintenance and risk management programs to ensure property maintenance follows industry best practices. A must-have IREM Skill Badge for property managers and maintenance staff that has been perfected over the years to elevate your properties, your building maintenance teams, and your contracted professionals.

Course description:

Property managers and maintenance professionals will learn best practices and action steps for running a comprehensive maintenance and risk management program that reduces potential loss and preserves the owner's investment.

After completing this course, participants will be able to:

- Implement a proactive maintenance and risk management plan that reduces risk and meets the owner's goals
- Prioritize maintenance activities and budgets to accomplish maintenance goals, resolve maintenance issues, and minimize risk
- Ensure proper maintenance and operation of major building mechanicals and systems
- Oversee maintenance activities to determine appropriate staffing, create detailed job specifications, execute proper contracts, and manage contractors' work
- Identify best practices for transferring risk through insurance and managing the incident response process
- Develop and implement emergency and disaster plans, business continuity plans, and reasonable standards of care

A must-have IREM Skill Badge
for property managers and
maintenance staff.
